

delivering **high performance**

"I enjoy the challenge of new people, new learning and new business. Helping leaders and managers to become exceptional is what really motivates me."

A successful trainer, facilitator and coaching professional for nearly twenty years with a reputation for exceptional results.

Paul has experience delivering Coaching, Leadership and Management Development Programmes across the UK, Europe, Australia, Africa, Middle East and USA. (see career detail)

Paul is a highly confident, self aware and capable facilitator and coach. He works in a very lively and engaging fashion bringing a strong commercial focus to his work.

Paul's focus is on behavioural change, both individual and team, with a strong psychological element to his work. Paul inspires confidence and enables others to generate insights about themselves and their impact on people around them. Paul is supportive, inclusive and challenging, when appropriate, but always with a clear focus on learning and improvement.

Paul provides a safe container within which people can develop greater self awareness, challenge their beliefs and values, generate different choices and commit to behavioural changes - always in the context of business success.

Training Philosophy and Approach

Paul believes in creating a safe environment within which people can explore and learn. An environment of stretch and challenge, where insights and commitments to change can happen.

Establishing trust is key to enabling individuals and teams to discover and learn. Providing structure engenders trust and openness. At the same time flexibility of approach and response enables individuals and teams to develop insights.

Business learning is about behavioural change and transfer of new strategies, attitudes and approaches into practice in the workplace.

During the past 18 years...

Other successes and contact details

inspiring **confidence**

“The values that I try to espouse in my business life are; trust openness, honesty, and integrity. I believe my training style is creative, engaging, challenging and enjoyable...”

Other successes:

Founder / Chair of Trustees of Alive & Well

a new charity working in Africa (Sierra Leone) to provide safe water to the most impoverished and forgotten communities on the planet by providing equipment and knowledge to drill wells, training local crews and providing the equipment to create a sustainable process.

I lead the initial expedition to Sierra Leone and repeated expeditions since. I believe that in order to be an effective leadership trainer and coach you have to live your leadership each day. You have to be the leader that you seek to help others develop in themselves.

Our initial expedition to SL's mission was to drill safe drinking water wells for some of the poorest communities on the planet. We trained a local crew – the most interesting training assignment of my career! The crew now drill free wells (we pay the costs and their wages each month from the UK) for communities in the region. We have changed 15,000 people's lives so far in 4 seasons with 60 wells drilled. The Ebola outbreak posed serious leadership challenges.

Alive & Well (www.alivewell.org.uk) is my leadership in action in a different very demanding context.

Founder and festival director of a bi-annual music festival catering for 1000+ people camping over 3 days. This will be our 20th year.

My three fine sons – Sam (30) Environmental Consultant (Dubai), Max (25) Film-maker, Luke (22) Arboriculturalist and Tree Surgeon.

I live with my wife of 32 years in Somerset, South West England, UK.
